13
Aug

Institute of Sport Information Evening – 7.00pm

An information evening for prospective Year 9s and their parents with special guest speaker, Barbara Kendall.

5-9
Aug

School visits

23
Aug

Enrolments due

Enrolment forms should be returned to your school or directly to Nayland College. Dual or late enrolments are accepted, but early confirmation is to your advantage.

15
Nov

Year 8 Orientation Day

Year 8 students will spend the day at Nayland College for orientation and to meet with other new students.

18-22
Nov

Family Interviews

Families meet with key Nayland College staff to answer any remaining queries, confirm subject choices and ask questions.

School tours

Families who are unable to attend Open Evening or who wish to tour the college on a normal school day can make appointment to visit us.

If you have any questions please phone the college on 547 9769 or email xtend@nayland.school.nz

Welcome

Dear Students, Parents and Caregivers

Kia ora koutou

Thank you for considering Nayland College for the next step in your education. We are looking forward to showing you the many opportunities that Nayland has to offer.

This booklet gives you information about:

- Important dates and events
- Bring Your Own Device (BYOD) Information
- The subjects you will be taking
- Extension options
- Specialist subjects
- Pastoral care
- Uniform
- Subject Pathways

As well as academic excellence, demonstrated by the high number of scholarships and NCEA endorsements our students achieve, Nayland College offers a wide range of subjects and activities that help all individuals to thrive in their chosen pathway.

As we move forward Nayland College is taking the best of our past and merging it with a fresh vision for our future. We are a school that ensures students leave us as strong, independent learners. This is blended with a clear, professional focus and a vision of meeting the learning needs of young adults in the 21st Century.

We are very proud of what our students achieve with the help of our passionate and committed teachers. We look forward to your joining us in 2020.

Yours sincerely

Daniel Wilson
Principal

Bring your own device (BYOD)

In 2020, we would like all Year 9 and Year 11 students to bring their own device to school. We also encourage students in other year levels to bring a device to school if possible.

In 2021 students in years 9-12 are requested to bring a device. In 2022 all students are requested to bring a device.

What is BYOD?

BYOD is exactly as it sounds: students bringing their own device to school to enhance their learning. Bringing their own device enables students to be active participants in a modern, blended learning environment. Students can customise their device and seamlessly extend the classroom beyond school hours wherever they have access to a high-speed internet connection.

What devices can be used for BYOD?

We recommend that students have a device that:

- Is a laptop (has a physical keyboard)
- Has a battery that will last 6+ hours
- Is lightweight
- Is robust enough to survive teenage life
- 13" or larger screen

Minimum Specifications:

- 2.2GHz Processor
- 4GB of RAM
- 802.11n or 802.11ac WiFi
- 128GB Solid State Drive
- Windows 10 (Mac is also suitable)

The above specifications have been provided to all major IT retailers in both Nelson and Richmond. These retailers will be able to discuss with you and your family the various devices they offer that meet these specifications.

We have also set up an online store with our preferred supplier, PC Media who have several suitable devices across a range of price points. The online store can be found at this link www.pcmmediaeducation.co.nz

Use the discount code NAYLAND2020. This discount runs to 28 February 2020 and gives \$100 discount off 'Shape the Futures' products.

Why do we want students in Years 9 and 11 to have a device in 2020?

The use of technology enables learning opportunities not available with traditional (pen and paper) teaching and learning. By implementing a 21st Century approach to teaching and learning, Nayland College continues to help students develop the skills they will need in today's world. BYOD enables schools to offer BLENDED learning programmes that are:

- Authentic
- Relevant
- Student Focussed

What is blended learning?

Blended Learning looks to use the best of all options to enhance teaching and learning through technology when and where appropriate.

Check out our website for up to date information and advice on BYOD.

Core subject information for Year 9

English, Mathematics, Health and Physical Education, Science, Social Studies, Art and Technology are the seven compulsory subjects taught in Year 9 core classes.

Additionally, students get to choose two extension subjects. One extension subject for terms 1 to 2 and the other in terms 3 to 4.

English

What you will learn: English is about understanding and communicating meaning in a range of written, visual and oral texts. Critical and analytical thinking skills will be developed.

Please note: English is compulsory from Year 9 to Year 11. English in the junior school builds the skills for senior English and Media Studies.

The Arts

Art — What you will learn: Make use of line, tone, colour and texture and gain the drawing skills needed to plan and create artwork. You will look at and observe the works of other artists/designers as a means of making art.

Please note: Art prepares students for the specialist subjects of Painting, Design, Printmaking and Photography in the senior school. A \$10 fee covers consumable items.

Music — What you will learn: This course offers an introduction to many aspects of music. You will be given opportunities to compose, perform and use technology. To aid this, you will learn basic music theory and study different areas of the music industry.

Please note: If you choose to learn an instrument at school through the itinerant programme there is an administration fee of \$30 per term and a cost to hire an instrument.

Dance and Drama — What you will learn: This course offers an introduction to many aspects of performance arts. You will be given opportunities to develop a range of movement and dramatic skills.

Please note: Dance and Drama prepares students for Drama and Dance in the senior school.

Mathematics

What you will learn: Mathematics and statistics are about exploring and using patterns and relationships in quantities, space, time and data. Skills in measuring, calculating and working with shapes and patterns will help students in everyday life.

Year 9 Subjects

Term 1	Term 2	Term 3	Term 4
Extension Option 1		Extension Option 2	
Science			
English			
Mathematics			
Physical Education and Health			
Social Studies			
Technology Modules			
Art Modules			

Please note: Mathematics is compulsory to Year 11. A scientific calculator is essential.

Social Studies

What you will learn: Social Studies is the study of people. A variety of concepts are explored in topics such as governments, cultural interaction, economic decisions and migration. Students will learn new skills to interpret resources and use inquiry methods to research social issues.

Please note: Social Sciences can be taken in the senior school. Related subjects are Geography, History, Tourism, Economics and Sociology.

Science

What you will learn: Science is about making sense of the world in which we live. Studying Science enables you to understand medical and health issues, new technology, electricity, household chemicals, transport, plants, horticulture, the environment and other things affecting our daily lives.

Please note: Science is compulsory until Year 11 after which students are able to specialise in Biology, Chemistry, Physics and Earth and Marine Science, Psychology.

Health/Physical Education

Health — What you will learn: How to make good lifestyle choices in relationships, nutrition, drug awareness, sexuality and mental health. You will develop skills in assertiveness and conflict resolution.

Please note: Health can be taken in the senior school through to Year 13. Aspects of health are reinforced at all levels of the college.

Physical Education — What you will learn: Movement skills in a range of activities such as aquatics, athletics, Te Reo Kori, ball skills, gymnastics, dance, fitness studies and minor games.

Please note: Physical Education is compulsory to Year 11 and is available to Year 13. Courses can lead to careers in sports, recreation or physical activity or can be taken for recreational purposes.

Technology

What you will learn: The process of investigating real problems or opportunities and developing and making creative solutions in a range of contexts, eg hard and soft materials, food, information and communication.

Please note: Technology in Year 9 leads to senior technology programmes. There is a \$30 material fee for the year. Additional costs may be incurred for extra materials.

Enrichment class

The enrichment class is offered at Year 9 and 10. In Year 9, the purpose of this core class is to introduce students to a wide range of academic activities at level five and six of the curriculum. Our aim is to prepare students to sit NCEA assessments in Year 10, to participate in extra-curricular academic events and activities and to generally broaden their holistic skills. It suits students who have excellent learning habits and a growth mindset.

Extension subject information

On the enrolment form students will need to select four extension subjects and rank in preference from one to four. You will be allocated two of your preferences as your extensions. One for the first half of the year and the other, for the second half of the year.

Instrumental Music Programme

This programme is open entry to any student who has already been learning a musical instrument or would like to learn an instrument. The course aims to support music skills and development through performance, with theory, history and composition incorporated into the programme. The Year 9 Instrumental Music Programme is run in conjunction with the Nayland College School of Music.

Please note: This course prepares you for taking Music in Year 10 and beyond. There is an instrument hire charge of \$30 per year and an administration fee of \$30 per term. The hire cost does not apply if you have your own instrument.

Art & Design

What you will learn: To create your own character illustrations using pencil drawing and the computer programmes:

Adobe Photoshop and Illustrator. You will develop your own style and extend your knowledge of contemporary illustration. Drawing hands and feet, facial expressions and more natural body poses will be covered.

Please note: This course is only for students with special aptitude. It will lead to Year 10 Art and beyond. Course fee: \$20. NB: All Year 9 students take a half-year core art course.

Creative food

What you will learn: To cook a range of dishes using new skills and techniques. You will also learn about basic food preparation techniques with pasta, sauces, cultural dishes, baking and simple presentation ideas allowing for creativity.

Please note: This course will provide you with basic practical food skills that can lead to further study in Year 10 and beyond. Course fee of \$30 is required to cover basic ingredients.

Design & Visual Communication

What you will learn: Sketching, drawing and modelling, design skills, how to use computer-aided drawing programmes and how to effectively communicate graphically.

Please note: This course will form a sound base for DVC courses in Year 10 and beyond. Course fee is \$10 to cover

the cost of modelling materials and consumables.

Digital Technology

What you will learn: To use a wide range of exciting internet and computing technologies. Create and edit images, animations, 3-D models and multi-media computer programs (Scratch).

Please note: This course will provide you with the skills you need for Digital Technology courses in Year 10 and beyond.

Sports Education

What you will learn: The programme at Year 9 includes goal setting, skill development, the principles and methods of training, anatomy and physiology, and teaching games for understanding.

Please note: This option is recommended for students who are passionate about sport and/or who wish to be considered for the Institute of Sport in the future.

Nayland College Institute of Sport (NCIS)

What you will learn: NCIS aims to build all-round successful people, not just successful athletes. The programme at Year 9 includes goal setting, athlete and team development, the principles and

methods of training, development, event preparation, hydration and sports nutrition.

Please note: There is a selection process for entry into this programme early in Term 4. This is a full year course. Students accepted are unable to take any other extension options.

Drama

What you will learn: This course covers drama skills, movement, improvisation, stagecraft and voice production. You will participate in performances and have the opportunity to develop practical skills.

Please note: This course leads to Year 10-13 Drama and Dance. It will assist your participation in extra-curricular activities including dance festivals, Shakespeare competitions, the production and Guildhall Trinity exams.

Workshop & Design

What you will learn: To design, make and evaluate individual solutions. You will work with a variety of materials using a range of machines and equipment.

Please note: This course will lead to Year 10 Technology. Course fee of \$25 is required for material costs.

Economics & Money

What you will learn: How to make money go as far as possible, wise buying, consumer rights and how to enforce them, credit cards and budgeting.

Please note: This course has direct relevance to daily living. It can lead to study in Economics, Business Studies or Accounting at Year 10 or beyond.

Fashion & Design

What you will learn: Fashion drawing, screen printing and other applied design techniques, pattern and fabric knowledge, sewing machine operation and construction techniques. These will enable you to make high-quality trendy clothes.

Please note: This course is for students with an interest in fashion who want to develop practical skills. It will lead to Textiles in Year 10 and beyond. Course fee of \$15 is required.

International languages

Chinese — What you will learn:

Reading and writing a variety of Chinese characters, how to introduce yourself and your family and Chinese culture including calligraphy, festivals and food.

Spanish — What you will learn: The basics of how to speak and understand Spanish, the most widely used language in the world. An introduction to Hispanic music, food and places.

Please note: To study languages at Year 10 and above you must start in Year 9. Studying at school can lead to exchange opportunities.

Outdoor Education

Outdoor Education aims to build self-confidence, teamwork, problem solving and communication skills, as well as providing a genuine challenge in the outdoors.

Please note: the course fee is \$40.

Te Reo Māori

What you will learn: An introduction to Te Reo Māori me ona tikanga (Māori language, customs and traditions). Correct pronunciation, understanding of vowels long and short, pepeha and mihihihi — an in-depth look at where the students come from. Also, a lot of fun, games and waiata singing.

Please note: This course is required to study Te Reo Māori in Year 10. Costs: Possible Marae visit.

YEAR 10

* YEAR 9 EXTENSION SUBJECTS

CAREER EDUCATION (THROUGH LEARNING AREAS)

Specialist programme

Institute of sport (IOS)

What is it?

The Nayland College Institute of Sport aims to build all-round successful people, not just successful athletes.

Advantages of being part of the institute are:

- Fully funded three-day high-performance camp
- Team and individual coaches
- Local facilities, e.g City Fitness, Nayland pool
- School facilities e.g. fitness centre, turf and gymnasiums
- Methods of improving own sporting performance
- NCEA academic pathway
- Specific mentoring for both sport and academic pathways
- IOS training t-shirt and drink bottle

How do I become part of it?

- Tick the Expression of Interest on the enrolment form
- Fill in the Athlete Profile and Permission and Medical forms on the website

Who does it involve?

- Qualified passionate staff
- Experienced coaches

Course content

Year 9 programme

- Goal setting
- Team building
- Fundamental skills development
- Teaching Games for Understanding and 'Game sense'
- Psychological skills training
- Event preparation
- Fitness components
- Principles of training
- Time management
- Sports nutrition and hydration
- Basic functional anatomy

Year 10 programme

- Integrated curriculum through active pedagogies
- Leadership

- Obstacle Racing and Team building through the Wairua Warrior preparation and event
- Physical conditioning
- Specific sports development
- Hydration
- Nutrition for competition
- Performance profiling
- Psychological skills training
- Sports injury prevention
- Rehabilitation
- Time management
- Goal setting
- Training principles and methods
- Achievement Standard at Level 1

Specialist programme

Year 9 Instrumental Music

In Conjunction with the Nayland College School of Music

Year 9 instrumental music programme

Nayland College offers Year 9 students the chance to learn a musical instrument through the Year 9 Instrumental Music Programme. The programme engages and supports students with an interest in developing musical performance skills.

The programme is open entry — meaning all students who have already been learning an instrument or would like to learn an instrument can join.

Although the focus is on learning a wood wind or brass instrument, there will be limited places available for other instruments as well.

Students involved in the Year 9 Instrumental Programme will be expected to participate in a school band or ensemble programme as appropriate and be committed to practising their instrument on a regular basis.

What will the programme include?

1. Three music lessons per week (this is in addition to any core music appreciation classes).
2. Performance based learning as a class ensemble.
3. Weekly itinerant lessons will also be available.
4. Opportunities to enhance theoretical knowledge.

Instruments available that you can learn through the 2020 programme are: flute, clarinet, saxophone, french horn, trumpet, trombone, euphonium and tuba. There will be limited places for other instruments as well.

Students will ultimately be prepared to undertake music study at a tertiary level and make career choices in the Arts.

Outcomes of the course:

- Students will be well equipped to go into a full-year, Year 10 Specialist Music Programme
- Students will be well prepared for music at NCEA Levels 1-3
- Students will ultimately be better prepared for learning across a wide range of disciplines through the confidence and skills they learn through music performance

Contact Nigel Weeks

Head of Music

nigel.weeks@nayland.school.nz

Whānau class

The Whānau tutor group is open to students from Year 9 to Year 13. They meet three mornings per week during Tutor time. Students will learn and participate in karakia (prayers — non religious) and waiata (songs).

The students in this class will be those who are able to live by the kaupapa and who also wish to be involved in Māori activities in the school and the community.

Members of the Whānau will have the opportunity to be involved in activities and hui. We will work with all students to set goals to assist their development and progress. It is also our intention to continue the Māori student leadership programme (Kaitaunaki) in 2020.

All students who are members of the Whānau tutor group are expected to:

- Be learning te reo Māori and/or be involved in the kapa haka group
- Attend school every day (unless there is genuine reason)
- Set learning goals and personal goals each term (there will be guidance available)
- Represent the Whānau with pride
- Follow the school values in their interactions with other people
- Attend Whānau hui
- Support and respect our kaupapa

There is an expectation that parents of students in the Whānau will attend the two hui that will take place each year. These hui are to encourage feedback from parents and to discuss plans to help your child to be successful at Nayland College.

We encourage parents to be an active part of our Whānau, so please feel free to come and spend time with us in Te Whare. We are looking forward to working with you and your taiohi. If you wish to discuss anything about the Whānau please do not hesitate to contact us.

Extra curricular Arts & Culture

Nayland College offers two distinct areas of participation.

Visual Arts

The Visual Arts are made up of the five subjects: Design, Painting, Printmaking, Photography and Sculpture. The Visual Arts have four modern studio spaces with additional specialist rooms for digital design, process photography and printmaking. The wide variety of opportunities and the focus on student-directed learning promote excellent student outcomes at all levels.

These include:

- Street art
- The Art of Protest
- Community and school-based murals
- Art Exhibitions within the school and local community
- Competitions
- Photographic darkroom processes including pinhole camera and photograms
- Digital illustration
- Printmaking opportunities using drypoint, screen and wood block techniques

Performing Arts

Performance Arts is made up of Dance and Drama. We have excellent purpose-built teaching areas including a dance and drama studio, individual sound-proofed music rooms and two large teaching spaces. The performance arts provide a range of specialist tuition, equipment and activities for students to fully explore their talents in a wide variety of opportunities.

These include:

- Drama Company
- Dance Company
- Major Production
- Theatre Sports
- Speech Competitions
- Shakespeare Competitions
- Chamber Music Competition
- Vast Dance Festival
- Nelson Arts Festival performances
- Kapa Haka
- Manu Korero
- Play it Strange Competition
- Choir
- Debating
- Rock Quest
- Orchestra
- Performance at school functions
- Concert Band
- Music Tours
- Jazz Band
- String Ensemble
- Stage Quest

Extra curricular Sport

Students decide to play sport for a myriad of reasons; Nayland recognises this and endeavours to offer a wide range of sporting opportunities for our students.

We are represented by individuals and teams from local competitions to national tournaments. The College also offers exciting overseas sports trips. In 2019 our Girls Volleyball team travelled to Hawaii. Sport will always play a big part at the College and Nayland will encourage our students to participate and excel in whatever sport they choose.

Uniform

Junior school uniform

The Nayland College uniform is designed to offer a range and choice of items that may be worn in any combination.

Girls

- Regulation skirt (skirts are to be worn at a reasonable length)
- Regulation shorts
- Regulation long pants
- Regulation girls polo
- Plain black tights (with feet) may be worn with the skirt

Boys

- Regulation shorts
- Regulation long pants
- Regulation boys polo

The following are unacceptable

- Excessive make-up
- Obvious body piercing
- Shoes with high heels
- Jewellery other than one pair of matching ear studs
- Items of non-regulation clothing
- Nayland College apparel that is not part of the school uniform (i.e. sports hoodies)

Unisex

- Regulation charcoal/maroon jersey
- Regulation charcoal/maroon cardigan
- Nayland College windbreaker jacket replaces black soft-shell jacket which is still able to be worn
- Completely black below-ankle or Converse-type shoes
- Plain black below-ankle sandals
- Plain black socks
- Plain black or Nayland College scarf
- Plain black long-sleeved undershirt (polyprop, merino or cotton)
- Plain black or Nayland College cap
- Plain black or Nayland College bucket hat

- Plain black or Nayland College beanie

Physical Education

- An appropriate change of clothing
- A Physical Education t-shirt will be available for purchase in 2020

Practical Classes

- Shoes must be worn in workshops

Uniform can be purchased at any time online from NZ Uniforms at <http://naylandcollege.nzuniforms.com/>

A uniform pop up shop is usually held at the beginning of each year to allow students to try on and purchase uniform before the school year starts.

Pastoral care

At Nayland College students are at the centre of everything we do. We work hard to ensure all students are well supported and develop a sense of belonging.

The range of pastoral support available to students includes:

- Vertical tutor classes with the same house tutor in successive years
- House deans who will accompany students through their schooling
- House system with student-led activities
- An experienced guidance team
- A range of specialised programmes for students who need additional support

- Cottage contacts
- Peer mentors
- Health workers
- Whānau class
- Literacy support classes
- Full-time special needs coordinator
- Dyslexia support group
- Learning support centre
