BYOD - We encourage students to bring their own device to school. We recommend that students have a device that: Is a laptop (has a physical keyboard); has a battery that will last 6+ hours; Is lightweight; Is robust enough to survive teenage life. Modern devices that have a solid-state drive and run Windows 10 tend to suit our environment the best (mobile phones are not suitable for BYOD learning).

Modules – Depending on modules selected, there may be specialist stationery/equipment required – Teachers will advise students in class.
